

## Guidelines for Athena Presentation

Please assume that your two reports regarding the grant have been read by all those present. We suggest that no more than two individuals be present to discuss this grant. Each organization is given twenty (20) minutes to present and answer questions. Questions will come from any of the Athena members.

Athena is interested in:

1. The use of its grant including any variations from planned use.
2. Any unusual outcomes or unexpected impacts from the grant.
3. How the program Athena funded will continue in the future.

You are welcome to use any electronic support material during your presentation.
